MASA SERIES

TIME IN MASA

When considering the furniture for a training room, flexibility seems to be the key issue for most companies. Many can only devote a certain amount of space for training. For example, the same furniture may be used for computer based training in the morning and might then be used to accommodate a role playing exercise in the afternoon. Some experts say that tables, chairs and walls can make or break a training session.

We always up for every challenge possible, we solved by making the folding mechanism table very simple.

MASA without modesty panel

MASA with metal modesty panel

MASA SERIES

Conference & Training

The way a trainer arranges a room dictates the effectiveness of the training session. The goal is to create an environment that promotes learning by both students and trainers interacting freely and constructively together. To accomplish this, a trainer must evaluate how the room will accommodate the lesson plan. The furniture and seating arrangements can be organized in a variety of different ways.

The more flexible the furniture, the easier it will create different seating style to fit the immediate need.
MASA will enhance the look and performance of any multi-purpose training, conference or classroom area.

MASA is easily folds, so one person can set it up or take it down.
Move and compactly store a roomful of tables with minimal effort.
